Judge Russell will swear-in

new BSL council

Judge Dan Russell of the U.S.District Court will swear-in the new mayor and city councilmen Friday at the Bay St. Louis City Hall. Ceremonies will start at 3:30. Bishop Howze will offer the benediction.

Mayor-elect Larry Bennett said a number of other officials will be present at the ceremony. Invited guests include State Senator Morton Smith, Representative J.P. Compretta, Waveland Mayor Johnny Longo, the present BSL city judge and attorney, city superintendent of schools and president of the school board.

The new mayor and council will be accompanied by their wives during the ceremonies on the city hall balcony. The public is invited; refreshments

Picyune man dies in car accident

A 42-year old Picayune man was fatally injured about 2:15 a.m. Saturday when his car left Highway 603 north of Kiln and overturned.

Mississippi Highway Patrol officers identified the victim as Ellis Jordan of 301 Bruce St. Officers said Jordan was alone in the vehicle at the time of the accident.

The body was taken to the Golden

Gate Funeral Home in Hattiesburg. Garbage pickup schedules for July 4th holiday

Garbage pickup schedules for the July 4th holiday have been announced by city officials in Bay St. Louis and Waveland. They are as follows:

BAYST, LOUIS No pickup on Monday. Monday's

pickup will be on Tuesday and Tuesday's will be on Wednesday. The remainder of the week will be on a normal schedule

WAVELAND Monday's pickup will be on Tuesday and Tuesday's pickup will be on Wednesday There will be no trash pickup on Wednesday

Military bill includes ammo plant for HC

Hancock County's economy received a promise of a shot-in-the-arm Tuesday when the Senate-House conferees approved a military bill that includes authorization for \$132.2 million for construction of an Army ammunition plant on the Mississippi Gulf Coast.

Sen. John Stennis, D-Miss., and Rep. Trent Lott, R-Miss., said the measure, combined with an earlier authorization, would provide the full \$181.2 million needed for the facility

The plant is to be located on about 7,500 acres at the National Space Technology Laboratories near Bay St. Louis and would manufacture a new

appropriation to finance construction of the plant, Lott and Stennis said. The facility, to be completed in 1981, would provide about 1,500 permanent jobs, 80 percent of them to be filled by local

The Senate had approved ar authorization bill including the am munition plant, but the House version did not contain the facility.

Stennis, chairman of the Senate Armed Services Committee and a member of the conference committee. said he thought the action of the conferees would be approved by the full Senate and House.

He said he was pleased that the conferees "have now agreed that the Mississippi Army ammunition plant is totally justified by the facts and should

Lott said the plant would have a "very significant, favorable impact on the economy of the area during the construction period and subsequently in the way of jobs for the local community

Committee to survey buildings in Bay St. Louis 50 years and older

A committee within the structiire of the Hancock County Historical Society is planning to record the buildings of Bay St. Louis. 'A historic sites survey form, approved by the State of Mississippi, will be a two page description for each building or historic

The qualities of each building will be recorded as to its physical condition, description, and historical description. The purpose of the survey will be to determine the areas where buildings or historical sites are located and ensure their preservation. The committee internally will structure itself to the needs and desire of the community.

On completion of the survey, it is the objective of the committee to determine those homes or districts worthy of preservation and possible designation for a historic district to be created. The

buildings that conform to the preestablished criteria of the National Register of Historic Places can be nominated for entry in the register. Historic preservation can help strengthen the sense of a community which distinguishes small towns by drawing on the resources of local leadership, helping to stabilize a city's tax base and provide life in the

downtown areas. Persons wishing to register their building may write: Historic Sites Committee, Hancock County Historical Society, P.O. Box 1340, Bay St. Louis 39520 or Phone 467-3907 and a committee member will call on you.

Margaret M. Gibbons and Helene Price are serving as Historic Site Committee Chairman and Secretary; Max Berns is president of the Hancock County Historical Society

Time capsule dedication is planned

A Bicentennial Tune Capsule has been placed in the ground on the lawn in front of the Pass Christian City Hall and will be dedicated on Monday, July 4th

at 5 p.m. The dedication will follow the installation of K. Zach Anthony as Mayor of Pass Christian

The Time Capsule will contain many different articles and pictures of life in Pass Christian during the Bicentennial Year of 1976. It will be mounted with a bronze plaque on a granite base

The wording on the plaque reads as follows "Time Capsule containing historic memorabilia describing life in Pass Christian, Mississippi in the year 1976 placed here by the Pass Christian Bicentennial Committee Not to be opened until July 4, 2076.

This is the last official act of the Pass Bicentennial Committee, under the direction of E Dave McCutchon,

The public is invited to attend the ceremonies

School children rated No. 1 by supervisors, director seeks grant balance for airport

by JAKE JACOB George Heitzmann, tax assessor and collector, Hancock County, told the supervisors on Monday that although he had asked them for more space for his department, he did not specifically ask that such should be supplied from the \$290,000 in Economic Development Administration (EDA), the disposition of which has been a hot subject in the county for almost the last two weeks. He said that his statement to them

was that should they make an addition

Supervisor President Alton A. Kellar responded that such was true but that when the supervisors had been discussing a possible addition they had been referring to the EDA funds.

Heitzmann is in dire need of the space for the storage of records and to provide for other departmental needs. Sheriff Sylvan Ladner, back on duty after having undergone a back operation, also forwarded his case for

additional office space.

on with the EDA fund split problem once again, an issue postponed from an unofficial session the previous Friday This time they were met by a full

National Guard. Much of the presentation given by school trustees paralleled that of the previous session, with the addition of reference to its payroll of \$1.2 million and employment of 200 people, putting The supervisors were then met head it ahead of all other employers in the

> Again as on previous occasions the school board asked for the entire \$290,000 to apply to its construction

school board including its president,

Monvel Cuevas, who last week had been

absent ". on active duty." with the

The statistical references were apparently made to offset those of Port Director Wilson W. Webre, who sought the money to generate some additional 100 jobs within the county, jobs that wouldbe created, he claimed, with the completion of the airport's industrial

Other new information supplied by the school board concerned its ever increasing enrollment figures, numbers which, they said, had jumped over 24 percent in the last seven years.

Education Superintendent Terrell

Randolph said people would not move place, unless they found a decent school system for their children

He said that even if they obtained the \$290,000 the school board would still be faced with floating a bond issue this

The education superintendent also stated he had written a letter to John Rutherford, Jr., chancery clerk, asking that his department be provided revenue sharing funds as this is the first time such could be used by the schools for operations and maintenance as well

"We intend to apply for two percent, which according to last year's share to the county of \$600,000, should bring in \$13,000," Randolph said

Kellar, later in the meeting, asked Randolph whether or not previous appliction had been made by the school system for revenue sharing funds "No," said Randolph

"This is the first request from the school board or its superintendent for (Continued on Page 5)

Gulfview, HNCE in contention

County school construction plans slashed following EDA fund split

by JAKE JACOB

A revised construction and renovation program for the county school system is to be 'worked up' in the office of county education superintendent Terrell Randolph this week following his board's acceptance of \$ 175,000 in Economic Development Administration (EDA) funds.

The money is coming to the school board as a result of a split in a grant of \$290,000 made recently to the county by

Facing the need of new construction at all its schools, and extensive lunchroom and restroom renovations at Hancock North Central School and Gulfview (Lakeshore), the school board had skirmished with the supervisors

last week in an attempt to secure all the funds for its purpose. The claim, apart from occupying the number one county priority slot - a fact endorsed by the supervisors, was based on an ability to double' the money utilizing matching funds available from the State Education Finance Commission

School Board Member Louie Ladner, serving his first term, voted against the accepting anything less than the \$290,000 on the basis that school trustees had presented a case for their money whereas the supervisors had failed to present their list of priorities.

"I am not willing to bargain on round

"I am willing to compromise but not

deal," Ladner said after the vote. The other four school board members reluctantly voted to accept the money even though such acceptance will result in their having to curtail the building

program. Randolph said he would present them with a revised program by their first meeting of July.

Board member Johnny Banks said he agreed with claims made that people in the county were not paying sufficient taxes a factor resulting in the school board's receiving minimum income even though the county's millage rests at the limit provided by law.

Banks earlier was cautioned by Board Member Oris Ladner against (Continued on Page 5)

to the courthouse he would like to be DuPont, Save the Bay hearings move to coast

\$175,000 in EDA \$'s given education

by JAKE JACOB The Mississippi Air and Water Pollution Control Commission's (MAWPCC) permitting board courtordered hearing into the merits of DuPont's proposed system of waste water disposal from its new plant on the Bay of St. Louis was adjourned Tuesday until 9 a.m., July 13 in the Security Markham Building, Gulfport.

MAWPCC adjourned its Jackson hearings Tuesday over the protests of Save The Bay, Inc. attorney Robert

Homes, on Monday, had sought to have the hearings moved to the coast to enable the many concerned witnesses

Other motions introduced by Homes were denied.

The denied motions ranged the necessity of having an entire board present; a purge of conflict of interest on both the board and the commission; a temporary restraining order halting construction work on the DeLisle site; access to DuPont's records to determine if documents exist containing information not favorable to the company and not introduced by them at either the 1974 public hearing on the waste water permit or before the State Supreme Court, concerning effects the titanium dioxide plant may have on the

Homes reportedly said following the latter ruling that he cannot acquiesce or accept it because the public is entitled to any information DuPont may (Continued on Page 5)

Randolph said his average increase over the past several years was 4.5 percent, a figure expected to climb to five percent for the current period. into the area, regardless of whether or not industrial development was taking

Louvier and Judy Stafford. Information on social security

Many public employees more than covers all adhave heard talks of the ministrative costs which financial advantages of average only about 2 percent. dropping out of the social security system, according to example of the disability Caril V. Stephens, Social protection of social security. Security Acting District A 48 year old school Manager in Gulfport, MS.

subdivisions presently have the option of getting out of social security after 5 years if they first give two years notice. Stephens pointed out some of the serious drawbacks to such a move. First of all, there simply

isn't any way an employer could duplicate the protection provided by social security. It isn't just a retirement benefit as many think. 30 percent of all monthly checks go out to family members where the breadwinner died or is disabled. Also, twenty billion dollars a year goes out in medicare checks.

Social security coverage provides benefits to young parents, children, students, the disabled, medical expenses, etc. It provides protection against inflation as the law calls for cost-of-living increases each July; all benefits are tax-free, and it is such an efficient program that the interest on the trust funds concerned.

Stephens gave an acual

teacher recently had a serious State and local political heart attack. Although there his doctor expects him to live for many years. The family consists of three children, ages 6, 9 and 12, and a wife. The social security checks

going to this family each month total \$701.40," said Stephens. "This is over \$8,400 year, all tax-free. Moreover, the automatic increases each July will provide inflation protection.' Stephens stressed the fact that the family's financial

situation would have been entirely different if the teacher's school system had dropped out of social security six years ago. If so, nothing could be paid because the social security law says disability benefits aren't due if the worker hasn't paid into social security in the last five years. Therefore, the family would be "out in the cold" as far as disability protection is

Shrimper crew Echoes member falls over board

Authorities were still searching for the body of a shrimp boat crew member who reportedly fell overboard early Wednesday morning, or late Tuesday night while his vessel was rolling in the swell, adrift with engine trouble.

Reported as the Shrimper Faith and Hope out of Pass Christian, the vessel apparently reported the incident around midnight, a call that was answered by units of the Harrison and Hancock Civil Defense and the U.S. Coast Guard Cutter Point Estero.

The accident apparently occured approximately one mile southeast of the Pass Christian Small Boat Harbor in waters too shallow for the USCG cutter to operate.

The Point Estero returned to dock about 4 a.m. at which time a number of small boats were combing the area in an attempt to locate the crew member.

Contacted yesterday police were reluctant to provide identification of the victim until either he or his body is located

SELECTED

Formal recognition as 'distinguished professor'' has been awarded to two Ole Miss professors for the first time in the University's history.

The two are Dr. John Pilkington, professor of English, and Dr. Chalmers M. Butler, professor of Electrical Engineering. Each will receive annually \$5,000 over usual salary plus \$2,500 in allowance for research purposes through funding by The University of Mississippi Foundation and the Ole Miss Alurnni Association.

Dr. Pilkington was awarded the 1975 Jules F. Landry Award for his two-volume work on the letters of authorcritic Stark Young; he is currently working on a biography of Young. Dr. Butler was the 1974 winner of the Western Electric Fund award from the American Society of Engineering Education for excellence in teaching, and is considered one of the nation's leading experts in electromagnetic theory.

Selections were made by a special committee which included three non-Mississippi scholars from universities in Kansas, Tennessee, and Georgia.

PARK GUIDE

A summer publication featuring information and drawings of 78 plants growing in Tishomingo State Park at various times of the year has been prepared by Ole Miss biology graduate student Fred Searcy of Pulaski. Supported by the Mississippi Park Commission and the UM Graduate School, the guide is highlighted by the art of Carole Ritchie of Frederick, Md., herbarium technician and Bill Martin, who photographically reduced the drawings for publication. Searcy collected specimens in the park for two years for his

The salt-water fishing Good shark and gar fishing off crickets. (C.C. Harrell, Cash 1st, 2nd and 3rd place winners seems to have slowed down a the bridge at night using small and Carry Bait Shop) bit, probably because of the croakers. There are a few prevailing west wind for the catfish being caught on past week and the high water shiners at night. We have a Gun Club held their 3rd annual Melissa Harvill. temperature. The best full line of bass and speck childrens fishing rodeo this reports that I got this week lures, we also have a full line past Saturday. The kids were from along the beach of other fishing tackle as well caught a nice bunch of fish. safe and enjoyable 4th of July and the Louisiana Marshes. as live minnows, worm and Trophies were awarded to the weekend. Most of the fish are being

caught on live bait. The resh-water fishing has been fair but not as good as it should be, the reason seems to be the water temperature.

The water is real clear in all of the local rivers and bayous, the salt-water is well up into both the Pearl and Jourdan Rivers.

All you fresh-water fishermen, it's time to purchase a new fishing license again. Everyone over 16 that fishes in fresh-water anywhere in Mississippi is required to have on his person a valid Mississippi Fishing License, anyone over 65 can receive a free fishing permit upon request.

A new bag-limit on largemouth black bass (greentrout) will go into effect as of July 1. The new limit will allow you to catch 10 bass whereas the old limit allowed you to catch 15 bass.

The 27th annual Mississippi Deep Sea Fishing Rodeo will begin Friday and run through Monday. Prizes will be given in 26 categories. Registration is free, registration forms can be picked up at most local sporting good shops or you may register at the Gulfport small-craft harbor.

PEARLINGTON: The water is beautiful, but the water temperature is still too hot. Your best bet this next week should be in the late afternoon. What we really

need is some rain. Col. Bass and Pete Peterson, both from Gulfport caught about 30 crappie in Buck Bayou using beetle

We had the Petal Bass Club from Petal, Miss. fishing here this past Saturday, there were 10 boats and 20 men. They caught a total of about 50 lbs. The top man was Tisdall with a total of 7 lbs. 10 ozs.

There were a few people catching bream on worms and crickets this past week. (Mr. Roy Baxter, Pearl River

KILN: The river is very low and real clear, the salt-water has moved up the river almost to the Kiln. Because of the heat the fish are biting late in the evening and real early in the morning before the sun comes up good. The catfish are biting good in the river. We have live shrimp, worms and crickets, we also have an assortment of lures and other fishing tackle. We have ice and beer and we open at 5:00 and close about 7:00. (Andy's Bait Shop, at Kiln Supermarket, Andy Ladner)

ANSLEY: There have been some trout caught at Lysens Point. Specks, croakers, flounders and a few reds are being along the shoreline of Heron Bay. Two of our campers Henry Nastasi and Ted Valentine caught some nice specks over the week end. (Mrs. Hall, LaFrances Fishing Camp)

JOE'S BAYOU: They are still catching fish at Grassy Point, the cut-off and toward the end of the seawall. The water is looking real good in the river. We have plenty of live bait for the weekend, we also have rental skiffs. (Mrs. Allie Cospelich, Joe's Bayou

Marina) BAY ST. LOUIS: The best reports on bass and crappie are coming from Rotten Bayou around the clover-leaf. Bass fishing is good around the cut-off also specks, croakers and flounders occasionally. Bream fishing is best on crickets in Rotten Bayou and the upper part of Mullata Bayou. They have been catching specks on white beetles with a red throat and clear beetle with a red throat along the beach in the mornings and in the evenings.

in each category. The King Fishermen was Doug Power The Bay-Waveland Rod and and the Queen Fisherette was

Health tip

From the American Medical Association

ALTITUDE SICKNESS

Planning a trip to the mountains to get away from the heat for a week or so" So are several million other American families at this time of year.

The American Medical Association cautions that if you're headed for some really high mountains - about 7,000 feet - it would be wise to make the change gradually if you wish to avoid high altitude sickness. Anyone who has made a trip to Mexico City can tell you

of his troubles in this respect. Try, if you can, to make the ascent over a span of days so that your body can adjust to the oxygen-poor thin air at higher elevations.

Symptoms of high altitude sickness are drowsiness; headache; blueness of the nails, lips, nose and ears; a feeling of warmth and flushing of the face soon after arrival; troubled sleep; irritability, and shortness of breath.

If you must make the trip quickly by plane, before the trip get a good night's rest and avoid alcoholic beverages and heavy smoking. A good breakfast an hour or so before departure is all right, but no food should be taken during the rest of the climb. Reduce physical activity during the trip. Sit quietly as much as possible. After arrival in the high altitude area, go to bed for a few hours and eat very lightly.

Indulge in only light physical activity during the first 24 hours. Walk, don't run, if you have to climb steps to a hotel

Patients with certain heart and respiratory conditions may encouter more serious discomfort by abrupt changes to high altitudes. However, physicians have noted that most patients with cardiac or pulmonary disease who can move around and engage in moderate activity at sea level most often can tolerate altitudes of

My address on ____ June 1:17 June:

I usually do not like to cite statistics, especially when they are disheartening, but I think I need to do so to demonstrate how we have failed in providing adequate health care for all Mississippians.

It may come as a shock to you to learn that the life expectancy of Mississippians is considerably shorter than the average American. Our general mortality rate is one of the highest in the country. Infant mortality in Mississippi ranked highest in the South according to the last census, and black infant mortality was the highest in the nation.

I believe that one of the major reasons for these alarming statistics is that our rural areas do not have access to proper health care.

For example, our state is served by 132 hospitals, but two out of every three are located in urban areas. Almost 70 percent of all out doctors are centered in ten cities, leaving only 30 percent to serve the rest of the state.

We have good, capable, concerned doctors in our state. We have the same type of ability and concern among our nurses and all other professions involved in health care. What we have not had in the past is the leadership to see that our capable doctors and nurses were available to all our people rather than just in the larger cities.

Our efforts to correct this situation will be from a comprehensive base. In our symposium, we will hear from rural doctors, the State Board of Health, federal agencies involved in health care, health educators, nurses, hospital administrators, educators, the Medicaid Commission, insurance companies, county supervisors, legislators, and professors.

We hope to have the best advice these people can give to help us formulate a workable policy, and then we will need their assistance to help make the plan work. I'm confident that we can have adequate health care for all Mississippians and be able to bring our mortality statistics in line with the rest of the nation.

BAY BOURBON and JUNIOR LIPTON ELIMINATIONS -John Heath will be race committee chairman this weekend for the Bay Bourbon - Knost - Adams limitations among the Bay Waveland skipperettes and the Junior Lipton Eliminations among the young sailors between the ages of 13 and 18.

There will be a skippers' meeting Friday evening at the club. Boat rotation will be determined at that time and the Scots will be placed in their slips in preparation for a 9.00 a.m. start Saturday morning for the first Bay Bourbon race. All skippers and crews will be female in the Bay Bourbon series. The winning skipper will qualify to represent Bay Waveland in the Quarter-Finals of the United States Women's Sailing Championship for the Adams Cup. The top three skipperetees will qualify for the Bay Waveland team in the All-Girl Knost Regatta in Pass Christian in August. The top skipper also wins the Bay Bourbon trophy for the 1977 skipperette champion of Bay Waveland

The first two races Saturday will be Bay Bourbon, sailed back to back. After a short break, there will be two Junior Lipton elimination races also sailed back to back, followed by two more Bay Bourbon races, weather and time permitting

The winner of the Junior Lipton eliminations will qualify ro represent BWYC in the Quarter-Finals of the United States Junior Sailing Championship for the Sears Cup The top three will be the Junior Lipton team who will compete in the Junior Lipton Capdevielle Regatta to be held at Pontchartrain Yacht Club in Mandeville, La., July 16 and 17

DuPont ...

(Continued from Page 1) have, any shred of information relevant to the matter since that time.

Referring to Save the Bay, Inc., Homes reportedly said, "We believe DuPoint has information that is not so favorable to them, and we want to explore whether or not those records

"There is a potential gold mine of information available to us, and we want to go mine that gold."

Dr. Richard L. Leard, board chairman, responded by reportedly telling Homes that just because DuPont has the money and the staff they had no reason to belive the company was withholding anything.

The board told Homes it would reserve the right to subpoena additional documents other than those introduced into the previous hearing or court proceedings if it becomes necessary.

Michael Newton, one of two attorneys representing DuPont at the hearing told the board that he doubted an subpoenas wwould have to be issued concerning company personnel Save the Bay want to testify at the hearings in Gulfport. One of the people Homes wants to cross examine is Larry Kniffen, project manager for DuPont since the company's annoucement of intent to build

the \$150 million titanium dioxide plant. A request by Homes for a transcript of the hearing was met with the charge that such would be in violation of state statute unless Save the Bay agreed to pay for such transcript.

Homes allegedly said that he still thinks the commission remains prejudiced and full of political conflicts.

I think there is prejudice on the permit board, and I want a chance to prove that, Homes reportely stated.

School construction; slashed

any move designed to transfer the west county students now traveling to Hancock North Central into the Bay St.Louis system.

"You may start something bad ... Oris Ladner said.

The comment followed a request by parents that consideration be afforded such an idea to avoid the students having to travel 40 miles to school in a bus and 40 miles back.

Banks was told by Randolph that such a move would result in the system loosing considerable ad valorem tax revenues and a further cut in state rebates as the result of average daily attendance loss.

The issue had arisen earlier in the day when meeting in joint session with the board of supervisors, the school board had the suggestion advanced as a means of reducing student load at Hancock North Central while at the same time lowering the necessity for as many, now needed, improvements at that location.

The millage issue was laid to rest by board president Monvel Cuevas, who said. "If we still hope for a bond issue it would certainly defeat our purpose to ask for a millage increase at this time."

Woodrow Ladner said the equalization of assessments would probably serve a better purpose to the entire county, a statement not disputed by his contemporaries.

Cuevas said the \$175,000 when matched with EFC funds would supply their immediate needs adding that while it "...would not heal our problems, it would go a long way..." towards providing solution.

He said it would be sufficient to fund the two most urgent projects, the new cafeteria at Hancock North Central and the restrooms at Gulfview (Lakeshore) although a complete review of the new construction program would have to be undertaken.

Board members by and large agreed with the supervisors in that several improvements needed in the existing cafeteria facilities at Noreth Central would be drastically lessened now the new structure was to be built.

The building program presented to the supervisors in an attempt to obtain the entire \$290,000, utilized money from

timber sales in addition to the EDA matching funds.

The total program called for expenditures of \$678,000. This sum was to be derived: \$312,600 in local money (\$290,000-EDA; \$22,600-timber sales). and \$365.400 in Educational Finance Commission matching funds (the last

year this is available; Hancock North Central Elementary School construction was to include: six classrooms, library, restrooms, and school office, local-\$198,000, EFC-\$132,000, total-\$198,000; new cafeteria. \$154,000-local, \$96,000 EFC, \$250,000-

At Gulfview School, Lakeshore, the expenditures were scheduled to cover: dressing and restrooms at gymnasium. \$35,000-local, \$27,000 -FFC, \$62,000 total; two classrooms, \$28,800-locai,

\$55,200-EFC, \$84,000-total. Finally, at Charles B. Murphy Elementary School, Pearlington, programmed for construction were two classrooms, \$28,800-local,55,200-EFC, \$84,000-total.

Asked on proposed plan modifications, Randolph said the final decision will be made after it is determined whether or not they can obtain any more of the EDA funds.

"We tried in vain to get the supervisors to show the public and us what priorities they have. "We will be interested in seeing their list and after that we can better con-

sider whether or not to challenge this allocation." Randolph said. He said the county was given 28 days from June 17th to get their priorities

established and that "...gives us until July 15th." In other business, board members again tabled a list of non-certified personnel at Gulfview and Pearlington while approving those at Hancock North Central less the janitorial staff whose job descriptions are still to be

established and accepted. Further approval was given to the engagement of a Title 1 aide, Mrs. (Continued from Page 1)

Patricia Ladner, for Annunciation School, and the hiring of a Title I school nurse, Mrs. Evelyn Jacob, and the superintendent's office personnel, Mildred Switzer, cafeteria supervisor, Bettye Mitchell and Brenda Ladner, bookkeepers, and Helen Mallini, secretary.

Approved for rehiring at Hancock North Central were: Elementary School: secretary, Mrs. Lameitre Ladner; Title 1 aides, Mrs. Audrey Cuevas, Mrs. Myrtle Cuevas, Mrs. Birdie Ladner, Mrs. Barbara Larsen, Mrs. Cheryl Lee, Mrs. Christine

High School: office personnel, Danny

Sue Ladner, Connie Smith, Erline Carter; machanic and helper, Glenn Ladner and Wesley Ladner; general custodian, Barney Cuevas; bus drivers, Edith Lee, Debbie Ladner, Janice Randall, David Brown, Yvonne Ladner, Rita Smith, Estelle Ladner, Linda Ladner, June Dedeaux, Sandra Ladner, Ella Strief, Betty Paige, Erline Carter, Donna Baughman, Margaret Malley, Layvonne Ladner, Ollie Shiyou; cafeteria workers, Luch Cuevas, Aline Curet, Dorothy Dedeaux, Louise Hoda, Dorothy Ladner, Helen Necaise, Janet Necaise, Myra Peterson, Marilyn Necaise, Betty Nell Necaise, Cynthia Watts, Sara Shiyou.

Crime resistance alert

CON ARTISTS -

AND THEIR

SCHEMES

One of the most despicable thieves prowling our streets today is the confidence swindler - a scoundrel who often preys on our elderly citizens. Regardless of the number of warnings issued by police departments, many older Americans are still being bilked out of their life savings by con artists using such swindles as the Bank Examiner Scheme and the Pigeon Drop Swindle. Recognizing the earmarks of these chemes can beln you to avoid falling. victim to them. Here, then, is how they

In the Bank Examiner Scheme, the con artist, posing as a bank officer or a police officer, asks you to withdraw money from your bank account so that he may trap a dishonest teller. After you make the withdrawal, you are to meet the swindler away from the bank and give him the money so he can "compare the serial numbers" and arrest the employee. The money, according to the con man, will be immediately redeposited to your account. Once you give the money to the phoney officer, he goes back into the bank - and then out another door with all your

money Of course, he does not work for the bank. He-makes his living cheating people The Pigeon Drop is usually worked by two or more con women. The first swindler pretends to find a money-filled envelope laying near your feet on the street The swindler's partner walks up and demands that the finder split the large sum of money three ways. It is suggested that the three of you put up five hundred or a thousand dollars in good faith" money You are selected to hold all the money for thirty days. If no one claims the lost money, the three of you will meet again in the same spot and split the find. You, of course, are to hand ' a good faith" money over to the other two women. All the money is wrapped and tied. You are given the envelope that was found. It now actually contains cut-up newspapers, the money having been switched by the swindlers during the wrapping. Of

"good faith" money. You are the A crime resistance technique that I strongly advocate is to make sure that you and everyone that you know, especially senior citizens, are aware of how swindlers work. Always beware of strangers offering secret get-rick-quick propositions - deals which must be acted upon immediately. Remember, very few people will give you something a woodburning

course, by the time you become

suspicious and look into the package the

con artists are long gone with your

for nothing. Clarence M. Kelley

NATIONAL SESSION UNIVERSITY - Dr. Jim R. Chambless, associate professor of health, physical education and recreation at Ole Miss, recently attended the Washington, D.C. national workshop for officers of state and district affiliates of the American Alliance for Health, Physical Education and Recreation. Dr. Chambless is president-elect of the Mississippi Association. The 50,000-member Alliance and affiliated associations strive to improve learning opportunities in schools and colleges and to upgrade physical activity and

recreation for all ages.

Children rated No.1 ... (Continued from Page 1)

revenue sharing money," Kellar said. He said such would have to be reflected in the school's budget before allocation could be made.

Kellar indicated that Randolph's wording left room for doubt in as much as though it could appear more than one application for revenue sharing funds had been made but denied by the supervisors.

Webre told a full audience that while he had sympathy for the system, it was ridiculous to believe people wouldn't support a bond issue.

He said that Hancock County had a tripple A rating and that people just "gobble up" Hancock County bonds. He said that poeple who are exploiting the county are going to have to pay (the bond repayment), not the local

Webre's speach was marked with frequent audience interuptions and a plea to Sheriff Ladner by Kellar that he restore order.

The \$290,000 is not all the money in the world and the school board

shouldn't get it all, Webre expounded. Webre discarded as a "...silly argument.." a parent's claim that while he could not guarantee the 100 jobs, if they did materialize, would go to Hancok County people, she could guarentee all the money would go to the county's children should it be granted

to the school board. Switching to another topic, one he has expounded on previous occasions, Webre told the supervisors and their audience that nobody was paying enough taxes in the county. He claimed the parents did not pay enough in tax money to cover the cost of hauling their children to school let alone provide for

their education. He called on the school board to issue bonds to cover the cost of school con-

struction. Told by the school board that their last two attempts to pass bonds had died, that Long Beach had not been able to pass their bonds, and that only 18 percent of the bond elections throughout the state had passed last year, Webre said that if this remains the attitude of the school board the

KENNEDY'S FIREPLACE

He said, "This county has to shape up to its future.." and called on the people

to go to the courthouse and look at the After vacating the chair to his vice president of the board, James Travirca, Kellar met in an aside

session with the school board from whence he emerged some short time later saying accord had been reached. Under the agreement the school board will receive \$175,000 of the EDA grant with the supervisors allocating the balance of the money to their

priority items. Kellar said a list of these items, plus cost estimates for each, will be presented at the first meeting of the board next month (July 5).

Randolph promptly stated that while the school system will graciously accept \$175,000, they would even more

graciously accept \$290,000. "We still loose \$319,000," said Randolph, apparently in reference to the allocation chop plus the Educational Finance Commission matching funds Kellar promptly retorted that he didn't appreciate Randolph pointing the

finger at the five supervisors. School board president Monvel Cuevas interjected that he had been assured by the majority of his board that the arrangement was one for which they could vote favorably, a statement proved true later in the morning when they passed on the motion favorable

albeit on a 4-1 count Kellar called for a roll call vote of his supervisors.

It was one unanimously agreeing to the proposed division. But, it was also one that brought Webre back to his feet asking that his

commission be given the other \$115,000 for airport development. He said that Governor Cliff Finch. with additional public works funds to allocate, had indicated he would look favorably on the county to receive a portion of this money should the supervisors see fit to utilize their EDA grant for the purpose of industrial development

Consolidation - an issue to be reviewed

This week the supervisors negotiated with their. At the time of original publication the consolidation packed issue - that of allocating some \$290,000 of federal funds to the county's top priority needs.

As one would imagine in an issue involving an opportunity by county entities to fulfill the nature of their names and opinions remain unused and unquoted. charges, more than one group sought access to the funds, and the supervisors themselves laid claim to a with the door held shut by apathy and the non-wave series of pressing problems at least deserving of makers.

The number one priority established by the county's legislators was the responsibility for its children and

Behind that all else paled

In view of some of the alternate needs, the decision to grant the lion's share to the school system is to be

But, even though the funds can be matched seemingly on a dollar to dollar or better basis, the sacrifice presents at best just a temporary solution, a satisfying of immediate needs, a delay in the inevitable

When the school board has completed its building

ministration funds does buy one thing for the school bond route

That is time

Facing a non-opening due to a lack of health permits at one and maybe two of its schools, the board cannot delay in carrying but unmediate renovations and construction to offset these deficiences.

But, more and more people are asking for alternates. Alternates to the fire fighting role, the "..minimums to get by " method of funding, and the constant overcrowding, lack of classroom level funds, the constant postponement of long-range problem solving. In February of 1976, the first of four editorials confurther investigation before any firm recomcerning the feasibility of consolidating school systems within this county was carried in the Sea Coast Echo. It was entitled "Consolidation makes cents" and a

reprint of it follows this introduction. Editorials number two, three and four, entitled: Consolidation- an issue as budget time draws near," "Consolidation is a public issue," and "Consolidation upport grows, vocational courses favored," followed on March II and 18, and May 27, 1976 respectively.

Their reproduction on this page will follow over the

school board to bring settlement to an emotionally issue drew some support but mostly from persons who could see the value in a general sought of way, or from people who were deeply involved in the issue and who, while passing favorable comment, insisted their

Consolidation, as an issue, remained in the closet

Now, the impetus is coming from other directions. Firstly, there are an increasing number of concerned parents whose attitudes are being tempered by circumstance to form a nucleus of citizen opinion in its

Secondly, the need for a single, unified, school system with long range plans geared to develop education throughout the entire county is becoming increasingly obvious.

Thirdly, the county has never really been able to support two entire administrational structures, a situation even more true now than in the past as finances are stretched to the limit.

Fourthly, with both systems seemingly jockeying program it still faces the problem of embarking upon into position to launch bond issues, a unified long-range the bond issue route to finance construction of ad- building program would result in a single bond issue; ditional classrooms and a new west-county high school. the elimination of a duplication of issuance expense, The allocation of the Economic Development Ad- and probably the receipt of better contractor bids.

Finally, an increasing number of elected officials are board that would not be possible to purchase under the looking favorably at the suggestion as a way to provide solution to an ever increasing problem

CONSOLIDATION MAKES CENTS Reprint- SEA COAST ECHO Thursday, February 19, 1976

Several interesting conclusions emerged from last month's gathering of school superintendents in

Some of these showed a refreshing shift in thinking, with a definite trend away from traditional Mississippi

Others however indicated a need for caution and

mendations be forwarded to the governor. In the study of schools' financial needs, including an increase in teachers' salaries, the administrators

gave opinion in many key areas. Among these were support for a uniform statewide assessment of property, the expansion of state revenue sharing funds in such a way as to free other funds for

school operations, and the management of 16th Sections lands by school boards.

homestead exemption, or any increase in sales tax. They were split in their opinion concerning the elimination of industrial tax exemptions, and the super consolidation of school districts.

Two other items however, did get the nod of approval. Both are to be viewed with extreme caution. Firstly, the superintendents favored granting county school districts the same tax setting privileges as municipal districts.

Next was the thought that counties be permitted to raise the mill rate from 25 to 30 mills,

Both these suggestions are frought with danger, and designed to apply further crippling levies to the collapsing taxpayer.

It does not take a skilled mathematician to figure the additional revenues to be generated by the application of a further mill to the tax structure, nor in the

multiplication of this amount by five. It does take a skilled mathematician to figure how this sum is to come from people whose budget is already stretched beyond the limit in support of a frequently decreasing, but ever mnore costly, array of public services. Personal incomes are facing rising utilities and food costs as well.

Further, it does not take any thought at all to realize that if the mill maximum were raised, the supervisors of most counties would consider it as an edit from the state capital, and feel; "honor bound" to vote the maximum hike, albeit not necessarily for the purpose proposed by the educators.

The answer, we feel, lies in the split opinion issue -

Mississippi has 82 counties in which schools operate

fered to pay the utilities.

short memory. I have talked with them

several times about this project.

under five different types of school districts.

Hancock County has a population of 21,200 as of January, 1976, according to the Gulf Regional Planning Commission. Of this total 6,854 live in Bay St. Louis, 4,614 in Waveland, and 9,732 in the unincorporated area of the county.

For this total we have two, separate public school systems, one financed in part by taxes from the municipalities, and the other in part from county taxes. In addition, we hear an increasing rumble to form yet another municipal system, for a triplication of services and administrational costs.

The municipal system has a budget this year of \$1,543,637. The county's budget is about \$1,600,000 for a combined total of \$3,143,637.

Instead of perpetuating the existing dual system and possibly adding a third, each complex and expensive to operate, and each offering different courses and standards, and in the process taking the easy solution to cost increases with higher mills and taxes, Hancock County, through consolidation could lead the state in cost trimming, and at the same time advance financial inducement to teachers and institute a better curriculum to all its students, in the maximum utilitzation of school buildings.

The objections to this course of action are obvious. Let us now see the application of constructive thinking, talent, and true administrative ability to overcome these objections, and provide the necessary draft enabling legislation to bring about educational advancement within at least, this county, all within the prevailing tax structure.

Opinion/Ellis Cuevas

How important is tomorrow?

How important is tomorrow?

Tomorrow is just another day for many - for Bay St. Louis Tomorrow is a very important day.

A new form of government, with a new mayor and five new councilmen will be sworn in as our new city legislators.

It has been almost 50 years since our form of government has changed. During that time many have served as mayor or commissioner, and most have tried to do what they thought best for Bay St. Louis

The majority in Bay St. Louis wanted a changed in our form of government and they voted for the change. (On election day the only votes that count are the votes cast - so the majority elects or defeats candidates and issues). The voters of Bay St. Louis decided in a change of their form of government. Municipalities who are facing Court challenges to their electoral procedure may wish they had taken the step instead of having their affairs settled by Federal decisions.

Bay St. Louis' new administration, in order to be successful, must, and we put emphasis on must, have the support and understanding of all of the citizens to work properly.

There are many obstacles known and unknown to be settled. In order for any form of government to be successful it must have the support of the people in order to operate to the best advantage of the majority.

The new administration will have to make decisions that you may or may not like, but before you cry uncle, check it out thoroughly and it could be that you will agree that the decision was made for the best interest of the majority.

Mistakes will be made (all of the new officials will agree) but if they are made, the majority can be remedied. If the new administration says they won't make any mistakes, they will fool not only you but themselves.

If you as a citizen would like to know just how you could help this new governing body, these three suggestions could be of much help;

(1) Attend as many council meetings as possible. (2) Keep informed of the problems facing the new administration.

(3) Discuss your views with the district councilman, the Councilman-at-large and the mayor.

It is only appropriate at this time to congratulate our new mayor and five councilmen and wish them the

The elections had many fine qualified candidates that offered themselves to the citizens of Bay St. Louis, and they should all be congratulated on how they

conducted their campaigns. Let us all be good citizens by showing our interest by attending the official swearing in or the new administration at 3:30 p.m. tomorrow. The place will be City Hall, S. Second St., Bay St. Louis, see you tomorrow!

The top educators were opposed to any increase in state personal income tax the abolishment of

Whittlin' with Whittle

Friday will present a new day in the ave of the citizens of Bay St. Louis ster a new mayor and council take the contribe bulcony of City Hall. You are invited to attend the testivate, which will be short) and then

1. If we to the business at hand With a new form of dovernment and www.eff.chals, we are sure there will be ary problems down the road. But we at all make our government an exreact example for the entire state if so all pull to other for the betterment. We are remaided of a cartoon from

the next declared two mules roped together by a dort rope. Just out of that to d both was a stack of corn. Both. that perfect of end minutes trying to that that talks from by pulling in Afterest frection. Finally they satword in the land direction. They are as to kar ther waiked wer and had of the other stack. Now we are not securation to problems to a series the idea of support the continuous together will at a total end tour roals much calculated quicker. Let's all pull

As ther thought a cotton farmer are and You are first the cotton tothe car unless all the trules pull the was one at the same time and in the

Thank God for the Lusday rain. We were in a had way with the lack of

rainfall over the past month and a half. But Wednesday saw us back under a hot sun and it will take only a few days to get back the dry conditions if there is no futher rainfall

A few words of warning First, those who smoke should not toss cigarettes or cigars out the window as you drive. Use that ashtray (you should all the time any way) Secondly, do not burn trash or other materials outdoors. Thirdly, save as much water as possible, we may need it. We noticed some youngsters splashing around in their baby" pool the other day, which was ok but they had left the water running full force and were having a time spraying the water. When the play period ended, the hose was still left running and several gallons of water were surely wasted

We are not against fishing from the Bay Bridge, but there is an increasing amount of litter left by those who use the facility. First, it is an eyesore for the community and secondly, it is

against the law. So those who use the bridge for fishing...cleanup your mess!

Don't forget the special meaning of the 4th of July. It's not just another holiday, but the day we have set aside as our Independence Day. Fly your flags proudly for those who have given us our great and free country.

Normally during the 4th of July holiday, we hear a large number of fireworks, but we urge everyone to observe safety rules and consider others if you plan to celebrate with a 'bang' Fireworks are dangerous and they should be treated as such. Do not let little ones hold or light them. A short or quick fuse could result in a nasty

accident. We know, we've been there. And on the second point, do not bother your neighbors while shooting fireworks. If there are elderly or sick folks in your neighborhood, go some where else to get your kicks shooting

Have a nice day and a safe 4th

Money down a pothole

A recent study of Mississippi road conditions by The Road Information Program (TRIP) of Washington, D. C. revealed that state drivers are pouring \$118 million annually down a pothole That is the amount of money lost by

Mississippi drivers in the form of more

Opinion/Ellis Cuevas

A plea to all citizens

There is a potential hazard in our area because of the extended dry weather. Every blade of grass will burn with very little help and every day you can see woods fires throughout the area.

Everytime one of these fires start, hundreds and even thousands of dollars are lost in forest products, not to mention the homes of so many that are endangered. So be extra careful with your camp fires, also make sure your cigarettes are completely out before you discard them. Do not throw lighted cigarettes out of your car windows on the highways!

Be a good citizen and help your fire department and forest rangers, if ever your help was needed, now is the time.

out roads. Put another way, the drivers of Mississippi could save \$118 million a year if the roads were in better shape. The Arabian oil crisis has pushed prices of gasoline to the point where less gasoline is being used. That means reduced revenues for the state's high-Thus, funds for way programs. building and maintaining roads are lower than anticipated. At the same time, inflation has raised the cost of everything, roads included. unforeseen problems such as Yazoo Clay are added, it is easy to see why projected funds are not sufficient to

keep the roads in adequate condition. It would cost Mississippi about \$140 million a year for the next 10 years to put its roads in good shape for years to come, the TRIP study found. The state qualifies for matching funds from the federal government, but must put up a portion for the federal government to match Mississippi risks forfeiting any

federal highway funds it cannot match. If half of the necessary \$140 million came from the federal government. Mississippi would have to spend only \$70 million to save its citizens \$118 million a year. That is a good investment in any business. Those legislators to whom the state's business is entrusted would do well to make that investment as soon as possible so that Mississippi drivers don't continue pouring dellars down a pothole

It was with dimay I read last week's Echo and learned of a handful of 25 people stopping the dumping work for the proposed Marina for Bay St. Louis, when they appeared before a meeting of the City of Bay St. Louis.

Had a poll been taken, I'm sure they would have learned they were in the minority, as a vast number of citizens would like to see this project take shape, and see Bay St. Louis keep in step with Pass Christian and Gulfport. Both of these fine cities have excellent marinas, which not only help the local people, but visitors as well.

The City of Bay St. Louis needs a marina and certainly should think of the needs of all the citizens. It would be interesting to learn the reasons why the 25 people are opposed to a marina. It certainly appears they are not boat owners or fishermen. Such a project as this Marina should not be stopped or put on the shelf till later

VA news

Education loans for veterans have nearly doubled in a year. Merlyn J. Cook. Assistant VA Center Director for Regional Office, reported

approved 1,516 education loans during March, the largest monthly total since the program was started two years ago. During March. 1976, 870 were approved.

More than 16,500 loans worth \$10 million had been granted through 1976. Since the beginning of this program, the Jackson Veterans Administration Center has made 884 loans for a total amount of \$645,000

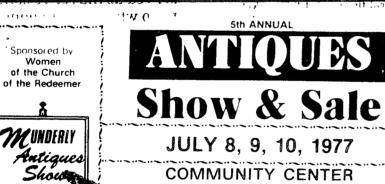

VA makes educational loans, up to a maximum of \$1,500 per academic year, to needy veterans and dependents beyond regular VA allowances to meet educational costs. Applications come from veteran students enrolled under the GI Bill and from dependents using the dependents

educational program. Loans are limited to students enrolled in a school in the United States, its territories and possessions, the Commonwealth of Puerto Rico or the Canal Zone.

Applicants must be enrolled on a half-time basis or more in courses leading to a standard college degree, or in a program of at least six months duration which leads to a professional or vocational

No loans are made for correspondence, flight, high school or on-the-job training. Applicants first must apply for a guaranteed student load administered by HEW. If they are turned down for the HEW loan, or fail to get the full amount, they can be considered by VA.

Repayment of principal and interest is deferred until nine months after the student ceases enrollment. Full payment is due within 10 years and nine months. No interest is charged until the beginning of the repayment period. At that time interest starts on the unpaid balance at the rate of 7 percent per annum. There is

In last Sunday's issue of the ECHO, we ran a picture concerning efforts to clean up a section along the seawall on North Beach Blvd.

in Beat 3

In the cutline, we incorrectly identified the beat as Beat 4. The correct beat is Beat 3, under the direction of Supervisor Oscar Peterson. We regret the error and are happy to make the correction.

go toward improvements at Munich.

In action on June 28th. hits. Cox struck out 8 and walked 4 in getting tabbed

when they pushed across 6 LaFontaine and Chris Smith runs and had the bases loaded Dwayne LaFontaine replaced Cox in the 4th and surrendered Coast's two hits, one to Kelly Geroux and one to David Strong. Incidentally, the final score was Legion 3 and Coast 1. It was by far the best game played out there

with the loss. Geroux went the

distance, 7 innings, struck out

12, walked 3 and gave up only 2

hits, one each to Dwayne

Legion bounces Dixie, 21 to 4

action at Bay High Field, Strong pitched 5 strong in-American Legion demolished nings in picking up the win, Chasez and Rotary battled it Dixie Realty, 21 to 4 and Ron Lusich was the losing Chasez topped Coast Electric pitcher for Dixie. by a score of 12 to 9.

2 hits for the Legion as they just overwhelmed Dixie, 21 to scored 17 runs in those in- Richardson was the losing innings with Cox pitching no-

out to a 14 to 14 tie after 5 in-

Andy Perniciaro and Rickie Four players each collected Hardie combined to pitch Chasez over Coast Electric, 12 to 9. Rickie Hardie, Donald 4 in a game that went just 41/2 Carver and Bryan Adam all innings because of the 10 run went 2 for 3 picking up 6 of rule. Kelly Geroux, Melvin Chasez's 8 hits. The big inning Barnes, David Strong and for Chasez was the 6th as they Cox and Kerry Geroux. Cox Steve Seymour all slapped 2 scored 7 runs on only 1 hit. singles. Legion batted around Mike Richardson was also 2 and Geroux for American in the 3rd and 4th innings and for 3 and pitched for Coast; Legion battled it out for 4

but a pop-out ended the rally. The second game featured a pitching duel between Scott pitching for Coast Electric

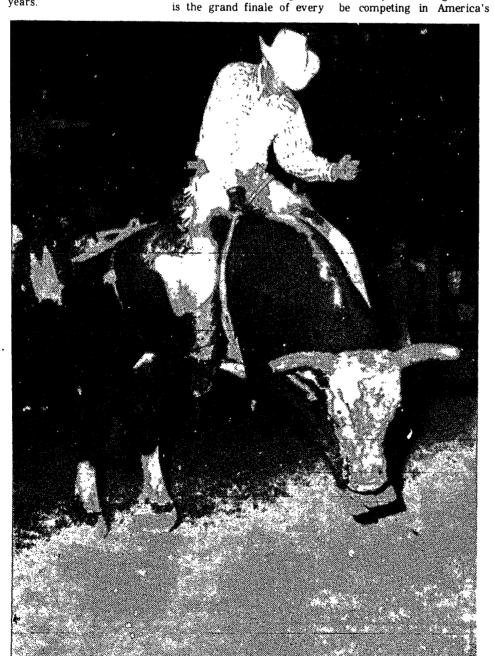

nings. Rotary had a chance to

win in the bottom of the 5th

CALF ROPING is a horseman's event, and this cowboy has legs with a "piggin String" for time. Calf roping times at many Tri-State Rodeos are around 10 seconds. A good horse in this event will bring a four-figure price....Months are spent training them to work consistently with the cowboy for a good

run. Calf roping is one of the many events to be held July 1 and this calf right out of the "Box." The cowboy is already on his 2 as the big Tri-State Rodeo gets underway at the Hancock Co. way to run down the rope, throw the calf by hand, then tie three Fairgrounds each night at 8:30 p.m. Advance tickets are on sale at the Hancock Bank, Bay St. Louis, Day's Feed Store, Waveland, Farm Bureau and Kiln Supermarket, Kiln, Milam Construction, Diamondhead, Branding Iron, Picayune, and Davis Grocery, Pearlington.

Gillis addresses GOP club

The Harrison County Republican Club executive officers were addressed by Charles Gillis, Chairman of county Board of Commissioners, regarding their resolution, as presented to the Board of Supervisors, to seek a reregistration of all qualified voters within the County. After much discussion, a motion was duly made. seconded and unanimously approved for the Harrison County Republican Club to go on record in support of the call for a new registration of voters in accordance with Section 23-5-51 of the

Mississippi Code of 1972. Joseph E. Peters, President of the club, encouraged all members and voters to lend their support to the Election Commissioners and to let them know by card or note mailed to them at P.O. Box 6691, Gulfport, MS.

Coming events

BOATING WEEK

In the interest of safe boating, Flotilla 35 United Coast Guard Auxiliary will have boating safety booths at Gulfport, Long Beach and Pass Christian harbors and also at Bayview Marina at Henderson Point. These booths will be manned by courtesy vessel examiners for three days starting July 2nd and running through July 4th.

Navy plans exploration of sea floor by scientists

THIS THE THE bathyscaph Trieste II, which is essentially an underground "dirigible." The large cylindrical float contains lighter-than-water gasoline that provides bouyancy. Release of gasoline causes vehicle to descend, and release of ballast in the form of iron pellets makes it ascend. Tucked under the float near the front is the steel sphere occupied by the crew.-U.S.

Hurricane glossary, names

Bulletin: A public release from a Weather Service Hurricane Warning Office issued at times other than those when advisories are required. A bulletin is similar in form to an advisory but includes additional general newsworthy information.

Cautionary Advice to Small Craft: When a hurricane is within a few hundred miles of a coastline, small craft operators are warned to take precautions and to avoid entering the open sea.

Cyclone: A closed system of cyclonic (counterclockwise direction) circulation characterized by low pressure and inclement weather. Extreme Hurricane:

tropical cyclone with maximum winds of 136 m.p.h. (118 knots) or higher and minimum central pressure of 28.00 inches HG (711.20 mm Hg or 948.19 mb) or less. Eye: The roughly circular area of comparatively light winds and fair weather at the

center of a hurricane. Gale Warning: A notice added to small craft advisories when winds of 38-55

m.p.h. are expected. Hurricane: A tropical cyclone with sustained winds. of 74 m.p.h. (64 knots) or

Hurricane Warning: warning that within 24 hours or less a specified coastal area Hg or 948.53 to 983.05 mb). may be subject to (a) sustained winds of 74 m.p.h. (64 knots) or higher and-or (b) dangerously high water or a

combination of dangerously loss of life and destruction of high water and exceptionally high waves, even though winds expected may be less than hurricane force.

Hurricane Watch: The first alert when a hurricane poses a possible, but as yet uncertain, threat to a certain coastal area, or when a tropical storm threatens the watch area and has a 50-50 chance of intensifying into a hurricane. Small craft advisories are issued as part of a hurricane watch advisory.

Land Subsidence: The sinking of the land, caused mainly by the withdrawal of become more vulnerable to tropical storm flooding.

Local Action Statement: A public release prepared by a Weather Service Office in or near a threatened area giving specific details for its area of responsibility on weather conditions, evacuation notices, and other precautions necessary to pretect life and

property. Major Hurricane: A tropical cyclone with maximum winds of 101 m.p.h. to 135 m.p.h. (88 to 117 knots) and a minimum central pressure of 28.01 to 29.00 inches Hg (711.45 to 736.60 mm Seiche: A series of fastmoving waves that sometimes

pehenomenon may cause total destruction and great loss of Storm Surge: An abnormal rise in the level of the sea

are superimposed upon the

storm surge.

produced by the hurricane. This inundation is usually responsible for the greatest

Buccaneer Crew Notes

BY LEIGH KOHNKE

We at Buccaneer are looking forward to a fun filled weekend for the Fourth of July. Last weekend began with a box hockey tournament Friday night won by Peter La Saichere, 15, of New Orleans followed by Brent Dicharry, 14, of Lutcher.

Saturday morning rolled off to an exciting start with Gary Joiner, 13, of Gulfport winning our skateboard contest. Timmy Dauzat, 12, of Metairie

stole second place although he taken by Brad Tannehill, 6, of had only been skate boarding Jackson for a few weeks.

There was a good turnout for the field day on the beach Saturday. Sack races, frisbee throwing, relays and tug of wars were only a few of the events. Frank Rauber was declared the overall winner in the day of competition.

Sunday morning gave all bikers a chance to show their skills. Terry Joiner, 9, of Gulfport peddled his way to victory with second place

We would like to remind everyone that for the safety and comfort of everyone concerned, the number of people entering the wading pool will be restricted this holiday weekend. When capacity has been reached, the gate will be closed until swimmers begin leaving the pool area. People will then be admitted accordingly.

PVT WILLIAM PIGOTT of Picayune (L), SP5 Denzil Dunn of Bay St. Louis (C) and SP5 Edgar Mooney of Picayune prepare to put down tar paper on top of a construction site at Camp Shelby. All are members of Company D, 890th Engineer Battalion of Picayune, one of many Mississippi National Guard units conducting annual training. (MISSISSIPPI ARMY NATIONAL GUARD PHOTO)

rebellious of doing things God's way. Somewhere I Monthly Communion for heard it said that "Methods are many and principles are few: methods change but principles never do."

MASSES

Bible School will close with a High Mass Friday, July 1, at 9:30 a.m. in St. Clare Church.

celebrity in the pulpit and pack the house. Then maybe the preacher can bring us a few words of devotional.' some membership experts advise us. Others suggest we feed them to keep them full

and satisfied. An old preacher told me one time that weiner roasts were good to gather a crowd, but in the end you may have only

increased your weiner eaters. After we have conjured up all the carnal methods we can think of, the divine and eternal truth still stand - the gospel "is the power of God unto salvation to every one that believeth; ..." - Romans 1:26. The Bible does not say,

"How shall we hear without a concert, a string band, a picture or a feast, or some other human inovation or gimmick?" But it does say, "How shall they hear without a preacher" - Romans 10:14. This is God's method, and His method will work. It is the Too many religious methods of men which fail. If

Word won't do God's work, it's certain nothing else will. "For after that in the wisdom of minded church members. The God the world by wisdom (its historic Biblical forms, of own wisdom) knew not God, it worship are considered outpleased God by the foolishness dated. Ordinanry sermons of preaching to save them that believe" - I Cor. 1:21. Of course, the size of the crowd has become the standard guage of successful preaching; but that vardstick is not found in the Book. Good solid gospel preaching does

not draw some people. Some think "experts" and impressive statistics are the real needs. In our mad rush to impress the world we have fallen victim to all sorts of carnal devices to bring in the crowd with the argument that the end justifies the means. It's good to have a large crowd. But if a crowd is all we have in mind, wouldn't it be better to have a circus? Come to think of it; some religious gatherins are pretty near that. God's method is to use His people - a Spirit-filled, Spiritled people guided by the

Divine instructions of the Bible. Rather than pay the price of being Spirit-filled, Spirt-led, and leeting the Word say what it means, we often substitute false fire, wordly expedients and cheap entertainment.

It is not the duty of the preacher to fill the house. It is his business to properly fill the pulpit. The church members should fill the house by being the kind of witnesses and Christians they should be. This may sound odd, but it's

-L. S. Walker

barred. This 15 day of June, A.D., 1977. PUBLIC NOTICE

INVITATION TO BID STATE OF MISSISSIPPI HANCOCK COUNTY TO ALL PERSONS INTERESTED

SITUATED IN HANCOCK COUNTY, MISSISSIPPI, TO-WIT: TRACT 1: The North 3.77 chains of the Northeast Quarter of the Northeast Quarter (NE% NE%) of 1977 to defend the suit No. 13,467 in Section 20, Township 5 south, Range 14 West, Hancock County, Mississippi, and containing

7.59 acres. TRACT 2: Beginning at the Northwest corner of Section 21. Township 5 South, Range 14 West; thence East 77 links, thence South 3.77 chains; thence West 77 links; of beginning, situated in Section 21. Township 5 South, Range 14 West, Hancock County, Mississippi, and

Township 5 South, Range 14 West;

Quarter of the Northwest Quarter provided chains; thence West 4.99 chains; Notice hereby is given that the

Board of Supervisors of Sharkey County, Mississippi, has authorized under said tracts of land for our poses of oil, gas and mineral exloration, mining and development Formerly said lands constituted in lieu "school lands" which had been properly selected and set aside in lieu of portions of 16th sections situated in Sharkey County, Mississippi. However, said lands described as Tracts 1 and 4 above into private ownership, subject however, to exception and reservation of an undivided one-half (1/2) mineral interest in Tract 4 in and to thence East 1270 feet to the place of all oil, gas and minerals therein, beginning. Said land containing 23.5 thereon and thereunder, which reserved mineral interests still are owned and held in trust for the use S, Range 15 West, Hancock County, and benefit of the educable school children in various townships in Sharkey County, Mississippi.

The Board of Supervisors of Range 15 West, Hancock County, Sharkey County, Mississippi, has prescribed the form of the proposed oil, gas and mineral leases covering the above-described tracts; and has prescribed also the royalty to be retained by the lessor, the annual rentals to be paid by the lessee, the primary terms of the proposed leases, and all other provisions of the proposed leases. The only item subject to bid for the proposed leases is the amount of the bonus to be paid by the lessee for each lease. A true copy of the proposed lease form containing all the terms and provisions so prescribed by said Board of Supervisors is on file and available for inspection by any interested person in the office of the Chancery Clerk of Sharkey County at Rolling Fork, Mississippi.

Any person interested in submitting bids for the proposed leases hereby is notified and invited to file a sealed proposal therefor with the Clerk of the Board of Supervisors (who is the same person as the Chancery Clerk) of Sharkey County, Mississippi, at his office in Rolling Fork Mississippi, on or before 9:00 o'clock a.m., on July 5, 1977. Each of the above-described four (4) tracts will be considered separately, and if leased, will be covered by a separate lease. All proposals should specify the amout bid with respect to each such separate tract. Bids may be submitted for less than all tracts. All such proposals so filed will be opened by said Board of Supervisors at said time or as soon thereafter as is conveniently possible at and during a regular monthly meeting of said Board of Supervisors, and, thereupon, subject to the approval of the County Superintendent of Education of Sharkey County. Mississippi, said Board of Supervisors will award the proposed lease covering each separate tract to the highest bidder therefor in the manner provided by law. Said Board of Supervisors reserves the right to reject any and all bids, and reserves the right to approve leases. on some but not all of the above-This the 27th day of May. 1977. PROPOSED FLOOD ELEVATION DETERMINATIONS HANCOCK COUNTY, MISSISSIPPI

AGENCY: Federal Insurance Administration, HUD. ACTION: Proposed Rule.

SUMMARY: Technical information or comments are solicited on the proposed base flood elevations (100-year flood) listed below

for selected locations in Hancock County, Mississippi. These base flood elevations are the basis for the flood plain management measures that the community is required to either adopt or show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program

The period for comment will be ninety days following the second publication of this notice in a newspaper of local

circulation in the above-named community. FOR FURTHER INFORMATION CONTACT: Mr. Richard Krimm, Assistant Administrator

Office of Flood Insurance (202) 755-5581 or Toll Free Line (800) 424-8872 Room 5270 451 Seventh Street, Southwest

Washington, D. C. 20410 SUPPLEMENTARY INFORMATION: The Federal Insurance Administrator gives notice of the proposed determinations of base flood elevations (100-year flood) for Hancock County, in accordance with Section 110 of the Flood Disaster Protection Act of 1973 (P.L. 93-234), 87 Stat. 980, which added Section 1363 to the National Flood Insurance Act of 1968 (Title XIII of the Housing and Urban Development Act of 1968 P.L. 90-448), 42 U.S.C. 4001-4128,

and 24 CFR Part 1917. These elevations together with the flood plain management measures required by Section 1910.3 of the program regulations are the minimum that are required. They should not be construed to mean the community must change any existing ordinances that are more stringent in their flood plain management requirements. The community may at any time enact stricter requirements on its own, or pursuant to policies established by other Federal, state or regional entities. These proposed elevations will also be used to calculate the appropriate flood insurance premium rates for new buildings and their contents and for the second layer of insurance on existing buildings and

contents. Maps and other information showing the detailed outlines of the flood-prone areas and the proposed base flood elevations are available for review at Hancock County Courthouse, Main Street, Bay St. Louis, Mississippi.

Any person having knowledge, information, or wishing to make a comment on these proposed elevations should immediately notify Mr. Adolph Kellar, President, Board of Supervisors of Hancock County, P.O. Box 152, Bay St. Louis, Mississippi 39520. The proposed 100-year flood elevations for selected

locations are:

Joseph's) held their 10th year class reunion on June 25 with the following functions.

An afternoon social for former graduates, teachers and classmates was held at the home of Susan Ryan

hour for graduates and escorts graduating class at St. was held at Our Lady of the Gulf cafeteria from 7 - 9 p.m. followed by a poolside party at the home of Connie Demoran

Thirty-seven graduates attended the day's activities; Mary Anne Horne received Estrade from 2 to 4 p.m. A the award for traveling the

Worrell Colson received the most changed award; Connie Demoran Heitzmann received the most unchanged; Mary Ann Becker Kimbrell, Shirley Scafidi Necaise, Christine Sauer Sardi and Jane Templet Pizolatto received awards for having the most children: Cathy Grow Gregg won the

"Fiddler on the Roof"

By NANCY GEX

"Fiddler on the Roof," was without a doubt the finest musical production ever produced at the Bay St. Louis Little Theatre.

Response to the show was so great that many theatre-goers were turned away each evening when Little Theatre president Joe Marochino tacked the Sold Out sign on the front door. An unscheduled Sunday night performance also played to a capacity

Directed by Olive McKenna, recipient of numerous Louie Awards, the show drew patrons from Pascagoula to New Orleans.

Playing the title role was a

local concert musician and instructor, Sharon Harris, who regularly performs with the Gulf Coast Symphony Orchestra. Dan Griffon, an experienced actor who had portrayed Tevye prior to the local production won audiences attention immediately and held it throughout the entire evening, despite the almost unbearable heat in the theatre. Outstanding performances noted were those of Sandra Sharpe as Golda, Lynn Stechmann, the oldest daughter Tzeitel, Louis Burghard, the butcher Lazar Wolf and Kathy Koch and Helene Giles

Show stoppers were the prologue, "Tradition," "To and the dream sequence featuring Pam Grondberg as the ghostly apparition of Fruma-Sarah, first wife of Lazar Wolf. Choreography, directed by Miss Grondberg was outstanding, the "bottle dance" being especially well

ovation at the conclusion of

every performance.

much deserved standing

Roger Sharp and Betty Stechmann designed and decorated the set, technical director was William LeBlanc. Accompanist for the musical was Mary Howard; violinist, Sharon Harris. The show was produced by

Among the many stops and starts along this nation's milk route, one occurred almost a century ago in a New York state hamlet that is among the most significant events in the

development of modern dairying. Dr. H. D. Thatcher, a neighborhood druggist, happened to be strolling when he saw his milkman plunge an arm to the elbow in a full can of fresh milk to retrieve a little girl's rag doll. The good doctor winced at what he saw, and in Dr. Hatcher followed the course of the "cream-line" the days that were to follow put his rag doll and gave birth to the milk homogenized milk so the cream rises to mind to the task of coming up with a bottling industry. Within two years the the top of the bottle 'like in the good ol' more sanitary way to handle milk. He wooden plug was replaced by days." shortly concocted the design for a hand- automatic bottle filling and capping. blown milk bottle. He fitted it out with a future rag dolls and milkmen's arms, and the American dairy industry had just made one of its greatest forward

America has been a'dairying since the first cows were driven from vessels at the Jamestown, Virginia, colony in 1611 and Plymouth, Massachusetts, in 1624. At first it went slowly, but herds multiplied along with the colonists. Nearly two centuries passed before the first regular shipmeny of milk by rail commenced in this nation - being transported from Orange County, New for obvious reasons.

But already at Liberty, Mississippi, a young schoolteacher by the name of as pasteurization experiments were once did, and accordingly has reduced

built the first successful milk condensery at Burrville, Connecticut.

Refrigeration with its many opportunities for fluid milk marketing loomed ahead strongly in 1875 with the invention of the first ammonia compressor. Then things began to pop. In 1878 a centrifugal cream separator was invented. Two years laster the first commercial pasteurizer appeared in Germany. Then only four years later

The turn of the 20th century saw the wooden plug secure enough to turn any rapid growth of commercial pasteurization, spurred by local ordinances. The World War I era saw development of homogenization and tank transportation by both trucks and rail. In the cities horse-drawn milk. wagons were in vogue as a colorful part... of urban life. However in 1925, the first step-and-drive milk truck began the phase out of the horse routes in American cities.

As late as 1948 the first plastic coated paper milk carton was introduced commercially. Plastic milk containers followed in 1964 and today the duo York, to New York City - a short haul dominate the sophisticated supermarket dairy bar fountainhead of modern fluid milk.

Today in Mississippi dairying ac-Gail Borden had set the stage for new counts for 5 percent of the farm value of developments in the storage and agricultural production and rates as the transportation of milk. In 1828 young 7th major source of income for Borden, aside from teaching at the Mississippi farmers. However the Liberty Male Academy, successfully modern dairy farmer demands about condensed milk. But it wasn't until 1856 twice as much production per cow as he

underway that Borden received a the size of the state's dairy herd by patent on condensed milk both from the about one-half. At the end of 1976 the U.S. and England. The next year he. state had 1,139 Grade A dairy herds.

Leading dairy producing areas in the state are around Tylertown, Columbia and McComb in that order. A relatively small group of dairymen

in the U.S. still sell their milk directly to consumers in glass jugs. Recent figures show that there are 396 dairymen listed in the nation that pasteurize and market their own milk directly to retail customers. One of them even offers a modern day

FOOTBALL PLAYER Ole Miss Rebel tackle Fernando Harvey has tive asisters at home in Jackson, and a sewing machine in his room at Ole Miss.

"I was always competing with them. Why, I can cook better than any of them," he claimed. "I guess what I wanted was a pat on the back from Mama. Sometimes she'd say, 'Are you girls going to let your brother outdo you?' It would make me feel real good." To keep up the competition, he enrolled in a basic clothing construction course at Ole Miss and has made pants, a dashika, a vest and a

TWINS CONTINUE The Hirsch name now appears to be linked to the practice of medicine for a third successive tradition...and doubly so.

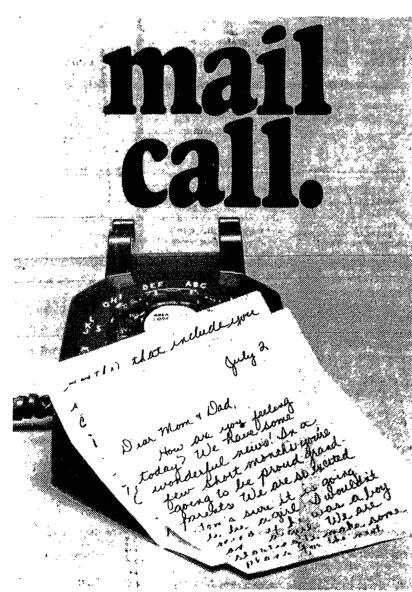

Twin sisters Cathy and Terry Hirsch of Greenville, daughters of Dr and Mrs. Jerome Hirsch, are enrolled in the pre-medicine program at Ole Miss and have not deviated from their longstanding plans, to practice medicine in the footsteps of their father and grandfather. "That's all we ever wanted to

do," explained Terry. But that determination has not curtailed campus activities for the Greenvillians. Cathy has been elected 1977-78 vice president of the Associated Student Body at Ole Miss and earlier served as chairman of the campus "Woman's Week." Terry is president of her dormitory and treasurer of Mortar

Board, leadership honorary "People think you don't have any extra time to do other things if you're in premed," said Cathy, "but you do if you're disciplined and budget your time."

SUMMER ACTIVITIES

The 1977 Summer Session at Ole Miss will include, in addition to customary classroom and research work, such varied activities cheerleader institutes, sports camps for boys and girls, school food service managers institute, yearbook clinic, conservation workshop, clinic for auxiliary band units, and the Faulkner Yoknapatawpha Conference.

Answer today's cards and letters with a long distance call. Call now while you're thinking about it. Long Distance. It's the *personal* reply they'll remember.
